You will be designing a PRIDE logo that could be painted center court of the **new basketball/volleyball court.** This project will include the baseline designs as well. Your design include the colors purple, gold, black and white only. Keep in mind that these designs are for school PRIDE and you must somehow integrate our Vasquez High School logo.

Fonts must be easy to read!
You can also go to dafont.com and find one that you would like to use in your design.
The subtext can be a bit more decorative, but it must pass the readability test.

Complete your designs in full color.

BEFORE YOU BEGIN do a little research.

Google Images will also be helpful!

KEEP IN MIND that the court will be for basketball and volleyball which will require a simple design/logo.
